SYNOPSIS

Visceral. With surgical poetry, the words reveal an introspective journey through diverse facets of the human experience. The everyday and ordinary is an extension of mystery and the sacred. In a massified world in apparent chaos, there is an invitation to search for authenticity and genuine expression; the work traverses divinely human themes such as existentialism, love, death, vulnerability, and the connection with the divine that inhabits each of us. The lightness of good poetry and a deep dive. The poems carry a tone that is impactful, surgical, unsettling, and comforting all at once, as if saying "we are together in our silences and confinements"—from the skin inward we are very much alike, and in that alone, connection is found.
