SYNOPSIS

Back to the Infinite Ritornello speaks of a singular female existence striving to joyfully affirm life, even in the face of tragic circumstances and the suffering inherent in her journey. In this chapbook, the poetic self moves between joy and lamentation without ever relinquishing her existence, courageously embracing it even in the most vulnerable moments of that acceptance. She perceives time as the master of the world and the orchestrator of our passage through the labyrinth of becoming: a time that passes, but that, one day, also returns.
