SYNOPSIS

The Chimera, an anomalous and creative character, is free and acts within the infinite present, while the "I" lives between past and future, an alien to its own time. The book is akin to visiting a private museum, where each text crafts an image infused with the feeling of words, revealing a constant attempt to reinvent and interpret what passes through and affects us. It reflects poetically on contradictions, addressing themes such as fear, passion, love, boredom, revolt, and dreams. A movement in search of one's own place, amid immense displacements.

ABOUT THE AUTHOR

Born and raised in the Cerrado of Brasília, she is a daydreamer. Her background traverses the formal disciplines of political science and law, and now, in her debut work, she explores the fluidity of literature. Her admiration for letters ranges from coming-of-age novels to surrealist writing, where she found the means to give voice to the oneiric and explore the depths of wandering souls. In addition to drawing inspiration from the nostalgia that permeates life, she uses imagery as a creative compass, and her poetic prose reflects her ability to explore and inhabit the tension between extremes across the past, present, and future.
