SYNOPSIS

Someone today might wonder why there are still enthusiastic individuals who bother writing texts in a language that romanticizes matters as foolish as a family's origins. To all those people, I reply, quite simply and directly, that it is only through the knowledge previously acquired by our ancestors that we will understand who we are. Some choose to skip this step, failing to give it its due importance. But attaining the much-sought-after perfection as human beings is always owed to their transcendental learning. And, whether we like it or not, it was always they, with their ways of being, customs, and traditions, who formed the deepest foundation of our existence. Thus, I believe that, by extension, we must pay close attention even to everyday things, to the hidden wisdom of everyday language, so that we may know the ancestral virtues and even the imperfections that lie dormant. Such attributes lead a connection between the past, the present, and our future.

ABOUT THE AUTHOR

A writer, people and business manager, and educator, he was born on June 18, 1978, in Vacaria, in the state of Rio Grande do Sul, where, during his early childhood, he discovered through his grandmother's hands the path to the unknown world of literature. He moved to Curitiba at the age of five, already literate, and experienced the delightful literary treasure within the diversity of Brazilian authors, primarily in the works of Machado de Assis and Érico Veríssimo.

Over the past three and a half years, he dedicated himself to learning and writing. The result was his debut novel, O Alcance Limítrofe do Inalcançável, whose central characters lead a story woven with courage, compassion, love, and longing (saudade). The author recreates eras and situations that trace back to his genealogical ancestry, allowing us to discover, in rich and deep detail, one of the countless families that crossed the Atlantic to help build our country.
