SYNOPSIS

Amid the storm of a tumultuous era, Danilo Lumiano raises his poetic voice as a call for reflection and self-care. Deeply contextualized within the turbulent reality of Brazil and the world, this book does not merely expose the social wounds of inequality, hunger, and abandonment; it also reminds us that we are woven from the fabric of love.

With boldness, Lumiano insists on pointing to society's wounds, inviting us to face the shadows we so often avoid. Yet, amid these incisive critiques, he also caresses the reader's soul, reminding us of the resilience inherent to the human condition and the constant possibility of finding a new path.

The poet, a pacifist in a harmonic state, walks a utopian path while acknowledging that the gates of hell stand wide open. Rather than trying to close them, he is too busy carving his own way toward glory. The Pacifist of the Harmonic State not only invites the reader to witness this journey, but also to take an active part in this path where sunlight guides each step toward a horizon of hope and renewal.

Prepare for a poetic experience that challenges, comforts, and, above all, inspires, as the poet Lumiano leads us through the shadows of reality toward a tomorrow full of possibilities, colorful as the coral reefs in the depths of the (s)ea/love.
