SYNOPSIS

Water Traces is a book that moistens our backlands. It is body-territory, where life drains away: in the “dry throat,” in the “pockmarked walls,” in the “white guipure dress,” in the “rituals,” in the “thresholds,” and in the “skyscrapers.” It is fertile poetic soil, where waters are present both in their surge and in their absence, where time elapses in the sweat of workers, in pulsing blood, and in the dry tear of farewell. Enveloped by the traces left by time, the poet seeks, through memory, the ancestral strength to keep walking and believing that other futures are possible.

ABOUT THE AUTHOR

Born in 2003 in Macaíba-RN. She is a poet, teacher, and researcher. She is a collective contributor to the book “Carolinas: a nova geração de escritoras negras brasileiras” (Bazar do Tempo and FLUP, 2021), and the author of the zine “Colo Ancestral” (2021). She is currently studying Portuguese Language and Literature at UFRN.
