SYNOPSIS

The Chimera, an anomalous and creative figure, is free and acts within the infinite present, while the "I" lives suspended between past and future, an outsider to its own time. The book is akin to a visit to a private museum, where each text shapes an image out of the feeling of words, revealing a constant attempt to reinvent and interpret what traverses and moves us. It reflects poetically on contradictions, touching on themes such as fear, passion, love, boredom, revolt, and dreams. The movement in search of one's own place, amid immense displacements.
